ABSTRACT

One of six volumes summarizing through narrative and statistical tables data collected by the Equal Employment Opportunity Commission in its 1974 survey, this fifth volume details nationwide statistics on the employment status of minorities and women working in township governments. Data from 299 actual units of government in fourteen states were used to project national employment figures. Statistics in this study are designed to highlight various aspects of the employment status of persons by six mutually exclusive race/ethnic groups and by sex. Included in the survey are eight occupational categories, fourteen government functions, and salary data. The conclusion was made that only negligible numbers of minorities were among those hired in this level of government, and only about one of every four new hires was a woman. Statistics indicated that minorities and women were being hired in functions and occupations where substantial proportions of them already were working, and the few minorities employed were substantially confined to service/maintenance jobs. Inequities in occupational and salary distributions persisted for minorities as compared with whites. Also, women had not reached parity with men in employment in functions, occupations, or salary levels. Appendixes, which make up the greater part of the document, contain statistical summaries of township government information, instructions for filing and report form, and source of reliability of data. FOREWORD

State and local public service offers numerous jobs of varied natures, especially in times of rising unemployment in the private sector. Employment in State and local governments expanded and employment of minorities and women increased slightly since the Commission's initial survey in 1973. However, equal employment opportunity has not yet been fulfilled in State and local government. The 1974 data reveal that minorities and women continued to be concentrated in relatively low-paying jobs, end even in similar positions their median annual salaries were generally lower than those of whites and men, respectively.

Through the EEO-4 survey, the Commission can observe the activities of these public employers to help ensure that minorities and women are accorded their fair share of public employment.

Ethel Bent Walsh
Vice Chairman
Equal Employment Opportunity
Commission

ACKNOWLEDGEMENTS

This report was prepared in the Research Division by Rosalind S. Reshad, Social Science Research Analyst, under the general supervision of Frank A. Haughton, Acting Chief, Research Branch and under the direct supervision of Harriett J. Harper, Supervisory Economist. Chung-Kuang Cheng validated the statistical data. Joan Hannan edited the report, and Isabelle Richardson and Alicia E. Smith of the secretarial staff in the Research Division typed the report for publication.

TECHNICAL NOTE

In accordance with the Equal Employment Oppportunity Act of 1972, the data in this report are based on statistics filed with the Equal Employment Opportunity Commission by township governments. The data collection instrument was the "State and Local Government Information" (EEO-4) form. Data do not include elected or certain appointed officials or employees of public elementary and secondary school systems or higher educational institutions which are excluded from the scope of the EEO-4 reporting system. A detailed description of the survey method and reliability of data can be found in Appendix 3.

SUMMARY OF FINDINGS

*** In relation to township governments, the major problem facing minority group members in 1974 was entry into the field. They were drastically underrepresented in most functions of government in relation to their incidence in the combined civilian labor force of the States with surveyed township governments. When employed, minorities were highly concentrated in such areas as sanitation and sewage and streets and highways.

*** Minorities were also underemployed in each of the occupational categories. They were overwhelmingly relegated to normally low-paying service/maintenance jobs.

*** In 1974, women also were severely underutilized in township government employment and in most of its functions. Female township employees were most likely to be found in the generally low-paying financial administration/general control function.

*** Women appeared to have difficulty accessing jobs in township government in all but the lowest paying occupational categories. Most women were employed as clerical workers.

*** Overall and in most occupational categories, minorities' and women's median annual salaries were lower than those received by whites and men, respectively.

INTRODUCTION

Title VII of the Civil Rights Act of 1964 prohibits discrimination because of race, color, religion, sex, or national origin in all employment practices, including hiring, firing, promotion, compensation and other terms, privileges, and conditions of employment. The Equal Fmployment Opportunity Commission (EEOC) was created to administer Title VII to ensure equal treatment in employment. Section 709(c) of Title VII requires employers to file with EEOC such reports as are appropriate for the enforcement of the Title.

The Equal Employment Opportunity Act of 1972 amended Title VII to extend coverage to State and local government employers with fifteen or more employees. Beginning in 1973, then, State and local government employers were required, as private employers have been since 1966, to make reports to EEOC concerning the race/ethnic and sex characteristics of their work forces.

The six volumes of Minorities and Women in State and Local Government - 1974 summarize through narrative and statistical tables data collected by the Equal Employment Opportunity Commission in its 1974 EEO-4 survey of State and local governments. In addition to the United States summary, there are separate volumes for each of the five types of government jurisdictions covered in the EEO-4 survey (i.e., State, county, municipal, township, and special district).

This fifth volume details nationwide statistics on the employment status of minorities and women working in township 1/ governments. Data are based on reports from those

1/ According to the 1972 Census of governments Compendium of Public Employment, Volume 3, Number 2, Bureau of the Census, U. S. Department of Commerce, Washington, D. C., November 1974), the term "township" was applied to 16,991 organized local governments in 21 States. As distinguished from municipalities, townships exist to serve inhabitants of areas defined without regard to population concentrations.

township governments with 100 or more employees, plus a sample of those with 15 to 99 employees. In 1974, data from 299 actual units of government in 14 States [2] were used to project national employment figures.

The statistics in this study are designed to highlight various aspects of the employment status of persons by six mutually exclusive race/ethnic groups [3] and by sex. Eight occupational categories and 14 functions of government [4] allow a comparison of the quality and quantity of jobs held by various groups of employees.

An important facet of the EEO-4 survey not found in other surveys of EEOC is the inclusion of salary data. This information provides an added dimension in assessing the employment positions of minority and women employees.

GENERAL CHARACTERISTICS

According to a 1974 Bureau of the Census survey of public employment, [5] total non-education employment in the approximately 17,000 township governments across the country was 256,000. The EEO-4 survey sampled 299 township governments. The data from those reports were used to project information for 115,430 total employees, or 45 percent of the total reported by the Census survey. Township employees represented

---

2/ The 299 townships filing EEO-4 reports were located in the following 14 States: Connecticut, Illinois, Maine, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, and Wisconsin.

3/ See Appendix 2 for definitions.

4/ Because no employees were reported for the employment security function at the township level of government, only 14 functions are addressed in this report. See Appendix 2 for descriptions of the activities included in the functions.

5/ Bureau of the Census, U.S. Department of Commerce, Public Employment in 1974, GE 74-No. 1, Washington, D. C., 1975, p. 11.

5 percent of all State and local government employees reported in the Census survey, but 2 percent of those in the EEO-4 survey.

It is important to note here that a significant difference exists between the coverage of the Census and EEO-4 surveys. The Census conducts its survey by selecting a sample from the universe of townships. EEOC (because of the limitations of Title VII coverage) selects its sample from townships with 15 or more non-elected, non-appointed, full-time employees. Since most townships have small numbers of such employees, relying heavily instead on the work of elected and appointed officials and part-time workers, a large proportion of the universe of townships are automatically excluded from the EEO-4 sample selection. The EEOC coverage rate rises to 64 percent vis-a-vis Census in regard to full-time employees.

Government townships in the 20 States enumerated in the Census survey had combined 1974 payrolls of approximately 2.4 billion dollars. The 1974 average annual earnings for the full-time, non-education township employees in the 14 States covered in this report ranged from $5,900 in Minnesota and $6,600 in Illinois to $10,600 in Connecticut and $11,300 in Michigan. 6/

Township governments covered by the EEO-4 survey can be divided by State into three broad groups according to the services they provide. The first group includes townships in Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, Rhode Island, and Vermont. Township governments in these States generally serve heavily populated areas and perform functions that are ordinarily associated (elsewhere) with municipal governments. The township governments in the second group of States--Illinois, Minnesota, Ohio and Wisconsin--typically provide only limited services to rural population areas, primarily the maintenance of local roads. Some townships administer, in addition, the support of indigents, assessment of property for taxing, police and/or

6/ Ibid., pp. 14-19.

fire protection. Townships in Michigan, New York, and Pennsylvania comprise the third group. These States' township governments vary in services provided according to the number of inhabitants in each township. Townships with relatively few inhabitants (Michigan--less than 2,000 persons; New York--less than 10,000 persons; Pennsylvania--less than 300 persons per square mile), termed "second-class" townships in New York and Pennsylvania, perform the same kinds of limited governmental functions as described above for the rural townships in the Midwest. The townships which are more densely populated and urban in nature, or "first-class" townships in New York and Pennsylvania, are more highly organized as governmental structures and they perform functions ordinarily associated with municipal governments.

Nationally, a majority (58 percent) of the township government employees covered by the EEO-4 survey, including those in both rural and in urban areas, worked in only three functions of government--streets and highways, police protection, and natural resources/parks and recreation. The largest single function was police protection. Judging solely by employment size, the corrections, public welfare, housing, hospitals and sanatoriums, community development, and health functions seem to be of minor importance in township governments. (See table 1.)

Due to this functional distribution, it is understandable that township employees were clustered in four occupations: protective service (includes police officers in police protection and forest rangers in natural resources/parks and recreation), para-professional (includes recreation aides in natural resources/parks and recreation), office/clerical (includes office workers in financial administration/general control), and service/maintenance (includes construction laborers in streets and highways and groundskeepers in natural resources/parks and recreation). Table 2 shows the distribution of employees by occupation.

Source: "State and Local Government Information" (EEO-4) Reports, EEOC, 1974.

The township government employees covered by the 1974 EEO-4 survey represented 2.4 percent of the employees reported in the entire State and local government survey. They were 1.8 percent of all full-time, but 5.9 percent of all other than full-time employees in the survey.

Minorities represented a scant 3 percent of all employees in township governments, which are generally located in areas with low minority group populations. The participation of minorities was much higher (11 percent) in the combined civilian labor force of the 14 States with EEO-4 surveyed township governments. Women, too, were underemployed in township governments, comprising 25 percent of all township employees, but 38 percent 7/ of the 14-State civilian labor force. Most of the jobs available in township governments were of the type generally closed to women (protective service, service/maintenance, and skilled craft).

Table 3. Participation Rates* of All Employees in Township Government, by Race/Ethnic Group and Sex, 1974

Employee Group	Number	Percent
All Employees	115,430	100.0
White	111,922	97.0
Minority	3,508	3.0
Male	86,325	74.8
Female	29,105	25.2

*Participation rate is the percent of jobs held by a specified group of employees, such as blacks or women. Participation rates in this table are computed for overall employment, but can also be computed for employment in any occupational category.

7/ These estimated civilian labor force data are based on 1970 Bureau of Census survey figures.

FULL-TIME EMPLOYMENT

In the 1974 EEO-4 survey, 69,643 persons or 60 percent of the township government workers were employed on a full-time basis. The distribution of full-time employees in descending order by size of employment is shown in Table 4. About three of every five employees worked in only three functions--police protection, streets and highways, and financial administration/general control.

Table 4. Functional Distribution of Full-Time Employees in Township Government, 1974

Nearly 80 percent of all township government employees were white men. Only 3 percent of the employees were minority men. Women, virtually all of whom were white, were 18 percent of all employees. Table 5 gives the breakdown of full-time employment by ethnic group and sex.

Table 5. Participation Rates of Full-Time Employees in Township Government, by Sex and Race/Ethnic Group, 1974

Employment of Minorities

Of the 2,361 minorities working full-time in township governments, an overwhelming majority (81 percent) were blacks. Fourteen percent were Spanish Surnamed Americans; 1 percent were Asian Americans; 1 percent were American Indians; and 2 percent were members of other, unspecified minority groups.

While all minorities generally were underrepresented in this type of government, Asian Americans and American Indians were virtually excluded. There were only 28 Asian Americans and 33 American Indians employed in the surveyed township governments, each group representing less than one-half of one percent of all full-time employees. Because of the extremely low participation in township governments of Asian Americans and American Indians, they are not discussed as distinct minority groups in this summary. They are included, however,

together with blacks, Spanish Surnamed Americans and other minorities in this section on total minorities.

Although minorities represented approximately 11 percent of the 14-State civilian labor force at the time of the 1974 EEO-4 survey, they were represented at only approximately one-third of that rate in township government employment in 1974. When analyzed by function, minority group employees' participation rates showed considerable variation from their overall rate of about 3 percent. For example, minorities were only 2 percent of the employees in police protection, the largest and highest paying function. On the other hand, minorities were 14 percent of the employees in public welfare, the lowest paying and one of the smallest functions, and 12 percent of those in sanitation and sewage, a function with relatively low earnings and moderately few employees. (See table 6.)

As shown in table 7, minorities and whites were concentrated in different functions. Thirty-four percent of the minorities, as compared with eight percent of the whites, were employed in the relatively low-paying sanitation and sewage function. In contrast, only 15 percent of the minorities, but 36 percent of the whites held jobs in the two top-paying functions of police and fire protection. (See table 7.)

Minorities were underrepresented in every occupational category in relation to their 11 percent incidence in the 14-State civilian labor force. Minorities were 5 percent of both the para-professionals and the skilled craft workers. They participated at their highest rate, 7 percent, in the service/maintenance category. In all other occupational categories, they were represented at rates of from 1 to 2 percent. (See table 8.)

Minorities tended to be found in different occupations than whites, as shown in table 9. Whites were three times as likely as minorities to be officials/administrators or professionals. In addition, twice the proportion of whites as minorities were protective service workers. At the other end of the pay scale, minorities were twice as likely as whites to be employed as service/maintenance workers. (See table 9.)

As a consequence of the occupational and functional disparities discussed above, the overall median annual salary for minorities was nearly $600 less than that for whites. About half of the whites, but close to two-thirds of the minorities, earned less than $10,000 per year. Conversely, while 15 percent of the whites earned $13,000 per year or more, only 7 percent of the minorities earned that amount. (See table 10.)

Township governments hired 6,200 full-time employees between July 1, 1973 and June 30, 1974. New hire data include employee turnover and employment expansion and, therefore, do not necessarily indicate net change. Only 200 of the new hires, or 3 percent, were minorities. Minorities were hired at rates below their incidence in the 14-State civilian labor force in all job categories. One slightly encouraging fact is that minorities were 4 percent of the newly hired administrators. (See table 11.)

Minority full-time new hires were highly concentrated in service/maintenance jobs. About five of every ten minorities compared with three of every ten whites were hired into this low-paying occupation. (See table 12.)

Employment of Blacks. Blacks were severely underrepresented among full-time employees in township government. They comprised about 3 percent of township employment compared to their incidence in the civilian labor force of 8 percent. 8/ Virtually all of the 1,900 blacks (90 percent) were men. (See table 5.)

Blacks were almost completely excluded from some functions of government, particularly fire protection, corrections, health and community development. In fact, their representation exceeded their surveyed labor force incidence in only two--the public welfare and the sanitation and sewage functions. (See table 6.)

As was the case with minorities as a group, blacks were concentrated in just a few functions of government. Six of every ten blacks worked either in sanitation and sewage or in streets and highways. Half the proportion of blacks as whites (13 compared with 26 percent) were in police protection. (See table 7.)

Blacks were represented at rates below their incidence in the 14-State civilian labor force in every occupational category. They participated at their highest rate (6 percent) in the service/maintenance category. (See table 8.) It follows, therefore, that well over half (54 percent) of the blacks working full-time held jobs in this category. Another 19 percent of the blacks worked in skilled crafts, where the median annual salary ($9,700) was slightly lower than the median annual salary for all full-time employees in township government. (See table 9.)

The pattern of low job status for blacks resulted in their receiving lower wages than whites. The median annual salary for blacks was $600 lower than that for whites in township government.

Blacks were 2 percent of the new hires in township governments. They were hired at a rate of approximately 4 percent in the official/administrator, para-professional, and service/

8/ Ibid.

maintenance job categories. Still, close to half (47 percent) of all blacks were hired as service/maintenance workers. (See tables 11 and 12.)

Employment of Spanish Surnamed Americans. At the time of the EEO-4 survey, Spanish Surnamed Americans were 2.2 percent 9/ of the 14-State civilian labor force, yet they represented a mere 0.5 percent of the full-time employees in township government. Of the 339 Spanish Surnamed Americans, only 19 percent were women. (See table 5.)

Spanish Surnamed Americans were underrepresented in relation to their incidence in the surveyed civilian labor force in all functions of government except public welfare. (See table 6.) Spanish Surnamed Americans' largest functional concentrations were in police protection (24 percent), streets and highways (23 percent), and sanitation and sewage (19 percent). (See table 7.)

Spanish Surnamed American employees held less than 1 percent of the jobs in every occupational category, ranging from 0.2 percent in the official/administrator and technician categories to 0.8 percent in the service/maintenance category. (See table 8.)

More than twice the proportion of whites (22 percent) as Spanish Surnamed Americans (9 percent) were officials/administrators, professionals or technicians, the three occupations with the highest median salaries. On the other hand, 23 percent of the whites were service/maintenance workers, as compared with 39 percent of the Spanish Surnamed Americans. (See table 9.)

Spanish Surnamed Americans' median salary was $600 less per year than that for white employees. In addition, 24 percent of the whites, but 30 percent of the Spanish Surnamed Americans, earned less than $8,000 per year. At the other end of the pay scale, twice the proportion of whites (15 percent) as Spanish Surnamed Americans (7 percent) received wages of $13,000 or more per year. (See table 10.)

9/ Ibid.

A scant 42 Spanish Surnamed Americans were hired to work in township government from July 1, 1973 to June 30, 1974. They were 0.7 percent of all new hires and 1 percent or less of the new hires in the various job categories. (See tables 11 and 12.)

Employment of Women

Although women were 38 percent of the 14-State civilian labor force, 10/ they were just 18 percent of the township government employees. The participation of women varied greatly by ethnic group. While white and Spanish Surnamed American women were 19 percent of their respective race/ethnic group's work forces, black women were only 10 percent of all black employees. (See table 5.)

Women were underrepresented in most of the functions. The few functions to which women had access were small in size and female-dominated. For instance, women were 83 percent of the employees in hospitals and sanatoriums and 71 percent of those in public welfare. On the other hand, women held only 7 percent of the jobs in the function with the most employees, police protection, and were only 3 percent of the employees in the second largest function, streets and highways. (See table 6.)

Due to the concentration of women in a few functions and their near exclusion from others, it was not surprising to note the wide differences between the functional distributions of men and women, as shown in table 13. Only one of every ten women compared with four of every ten men worked in police or fire protection, the two top-paying functions (median annual salary: $11,400). On the other hand, well over half (54 percent) of women as compared with just 6 percent of the men worked in the functions with the lowest overall median annual salaries--financial administration/general control ($8,100), public welfare ($7,900), and hospitals and sanatoriums ($7,900). (See table 13.)

Overall, women's median annual salary was $3,100 less than that for men in township government. In fact, women's median salary was less than men's in every function. In police protection, the median annual salary for women was $5,100 less than that for men. In financial administration/general control, a female-dominated function, their median annual salary was $4,500 less than men's. The median salary gap was narrowest in the female-dominated function of hospitals and sanatoriums, but even here, women's median salary was $800 less than men's.

Table 14. Salary Comparisons of Full-Time Employees in Township Government, by Function and by Sex, 1974

Part of the reason that women earned so much less than men in the same function was that they were employed in small proportions in the better paying occupations and in large proportions in the low paying ones. Women held only 14 percent of the top-paying official/administrator jobs and 1 percent of the protective service positions (includes police officers). In fact, women were underrepresented in relation to their incidence in the civilian labor force in every occupational category except the two lowest-paying ones--para-professional and office/clerical. (See table 8.)

Just 5 percent of the women as compared with 39 percent of the men were technicians or protective service workers, occupations in both of which the overall median salary was $11,300. Conversely, 77 percent of the women compared to 4 percent of the men held para-professional or office/clerical jobs, categories in which the overall median salaries were less than $8,000 per year.

In every occupation, women's median annual salaries were lower than men's. In protective service, women's median salary ($5,900 per year) was only 52 percent of that for men. The median annual salaries of female administrators and professionals were only three-fourths as much as those for their male counterparts. The smallest salary discrepancy was in the female-dominated office/clerical category, where women's median salary was $1,000 per year less than men's. (See table 16.)

Women were 27 percent of the new hires. Women's new hire rates exceeded their incidence in the 14-State civilian labor force (38 percent) in only three job categories--professionals, para-professionals and office/clericals. Only 5 percent of those hired in the male-dominated protective service category were women. (See table 11.)

Table 16. Salary Comparisons of Full-Time Employees in Township Government, by Occupation and by Sex, 1974

Service/maintenance	8,770	6,520	2,250

Source: "State and Local Government Information" (EEO-4) Reports, EEOC, 1974.

Less than half the proportion of women as men (20 compared with 44 percent) were hired into the four top-paying occupations of administrator, professional, technician, and protective service worker. Basically, women continued to be employed in traditionally female-dominated occupations. About 75 percent of the women, compared with 6 percent of the men, were hired as para-professionals or office/clerical workers. (See table 17.)

OTHER THAN FULL-TIME EMPLOYMENT

There were 45,787 other than full-time (part-time and/or temporary) employees reported by township government in the 1974 EEO-4 survey. Other than full-time employees held four of every ten jobs in township governments. Minorities were 2.5 percent of all other than full-time employees, a rate slightly below their proportion of full-time employment (3.4 percent). Women, however, were represented at a substantially higher rate in other than full-time employment (36 percent) than in full-time work (18 percent). (See tables 5 and 18.)

Other than full-time employment was concentrated in only a few functions of government. Over two-thirds (68 percent) of all part-time and/or temporary employees worked in natural resources/parks and recreation, police protection or fire protection. The high number of employees in parks and recreation is partially a result of the fact that the EEO-4 survey covered employees on board during a payroll period (June 30) which included summer employees.

Table 19. Functional Distribution of Other Than Full-Time Employees in Township Governments, 1974

Function	Number	Percent Distribution
Total	45,787	100.0

Two-thirds of the minority part-time and/or temporary employees, but half of the whites, were para-professionals or service/maintenance workers. Conversely, only 18 percent of the minority employees compared with 30 percent of the whites were administrators, professionals or technicians. (See table 20.)

Women were twice as likely as men (63 compared to 29 percent) to hold low-paying para-professional or office/clerical jobs. On the other hand, less than half the proportion of women as men were protective service workers (12 compared to 27 percent) or service/maintenance workers (13 compared to 32 percent). (See table 20.)

CONCLUSION

Unemployment and inflation continued to dominate the economic scene in 1974. Unemployment was particularly high among minority group members and women. The unemployed would likely turn to the public sector as well as the private in their search for jobs. Yet analysis of EEO-4 data on full-time new hires in township government revealed that only negligible numbers of minorities were among those hired in this level of government, and only about one of every four new hires was a woman. Furthermore, the statistics indicated that minorities and women were being hired in functions and occupations where substantial proportions of them already were working, and they continued to be excluded from the many "traditionally white" and "traditionally male" functions and occupations.

Equal employment opportunity was not approached in township government in 1974. The few minorities employed were substantially confined to service/maintenance jobs. Inequities in occupational and salary distributions persisted for minorities when compared with whites.

Women had not reached parity with men in employment in functions, occupations or salary levels. They were nearly excluded from several functions with high earnings potential. Continuing the imbalance, women were restricted to clerical positions in most functions. In those functions and occupations where their numbers dominated, women were paid substantially less than men.

The EEO-4 survey allows the Commission to observe the results of the employment practices in township governments. These township governments obviously have not taken advantage of the opportunities available to hire and promote minorities and women even to their minimum potential.

Appendix 2: State and Local Government (EEO-4) Instructions for Filing and Report Form

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

WASHINGTON, D.C.

State and Local Reporting Committee
1800 G Street, N.W.
Washington, D.C. 20506

EEOC FORM 164, STATE AND LOCAL GOVERNMENT INFORMATION (EEO–4) (RCS: OMB No. 124–R0009)

INSTRUCTION BOOKLET

Under Public Law 88–352, Title VII of the Civil Rights Act of 1964, as amended by the Equal Employment Opportunity Act of 1972, all States and local governments that have 15 or more employees are required to keep records and to make such reports to the Equal Employment Opportunity Commission as are specified in the regulations of the Commission. The applicable provisions of the law, Section 709(c) of Title VII, and the regulations issued by the Commission on May 14, 1973, are printed in full in the Appendix (4) to these instructions. School systems and educational institutions are covered by other employment surveys and are excluded from EEO–4.

In the interests of consistency, uniformity and economy, State and Local Government Report EEO–4 is being utilized by Federal government agencies that have responsibilities with respect to equal employment opportunity. A joint State and Local Reporting Committee with which this report must be filed represents these various Federal agencies. In addition, this report should bring about uniformity in State and local government recordkeeping and reporting and should serve as a valuable tool for use by the political jurisdictions in evaluating their own internal programs for insuring equal employment opportunity.

As stated above, the filing of Report EEO–4 is required by law; it *is not voluntary*. Under Section 709(c) of Title VII, the Attorney General of the United States may compel a jurisdiction to file this report by obtaining an order from a United States District Court.

1. WHO MUST FILE

Those who must file this report include (1) all States; (2) all other political jurisdictions which have 100 or more employees; and (3) an annual sample of those political jurisdictions which have 15–99 employees. The sample is rotated annually, so that none of the smaller jurisdictions will be required to file in consecutive years and all will be required to file in their turn. Sampled jurisdictions will be informed by receipt of the forms that they have been selected to report in a particular year.

2. WHO MUST KEEP RECORDS

Every political jurisdiction with 15 or more employees must make and keep records and statistics which would be necessary for the completion of Report EEO–4, as set forth in these instructions. Records must be kept for a period of 3 years. See regulations 1602.30 and 1602.31 in the Appendix (4).

Although the EEO–4 report requires the combining of agency data to complete the report, separate data for each agency must be maintained either by the agency itself or by the office responsible for preparing the EEO–4 report, and should be available upon request to representatives of Federal agencies.

3. HOW TO FILE

States should file a separate form for each function performed, maximum of 15 separate forms, for each Standard Metropolitan Statistical Area (SMSA), and a maximum of 15 forms for

the rest of the State, covering all employees not employed in an SMSA. State reports should cover state employees only. Where SMSA's cross State lines, the state is responsible only for that state's employment in that SMSA.

Recipients below the State level (county, city, township, special district) should file one form for each function listed on page 1 of the form (if that function is performed), for a maximum of 15 forms. Jurisdictions should report only persons working for the jurisdiction.

Where interstate, intercounty, etc., boards, agencies, commissions, or other type special district governments exist, the forms should be submitted by the headquarters of the special district.

Blank forms will be sent to a central office for the political jurisdiction. In those jurisdictions where all data are available at a single location, forms may be completed by the central office. Where data are not available centrally, figures should be obtained by the central office from all agencies and aggregated into the proper forms by functions. [In both cases, a list of *all agencies covered* should accompany the forms.]

Enclosed with the forms is a summary page on which you are requested to check those functions for which you are submitting completed reports; functions for which you are not reporting; and functions for which you will be reporting at a later date. This will facilitate our own record-keeping, and minimize unnecessary follow-up correspondence.

The summary form also contains a provision where one official can certify as to the accuracy and completeness of the entire report from the jurisdiction. If such certification can be and is made by one official, a separate signature on every form will not be required.

The fact that a branch or agency of a government has separately elected officials, or is autonomous or semiautonomous in its operations does not affect the legal status of the jurisdictions, nor the requirement that EEO–4 cover the entire jurisdiction. To the extent feasible, the report should cover all branches of the government. In any cases where that is not feasible, and data are not available to the central office of the government, *a list of agencies and addresses not included should accompany the report.*

In all cases, the original and 1 copy of all completed forms must be returned in one package.

4. WHEN TO FILE

This annual report must be filed with the Equal Employment Opportunity Commission no later than September 30th. Employment Figures should cover the payroll period which includes June 30.

5. WHERE TO FILE

The completed reports (in duplicate) should be forwarded to the P.O. Box indicated on the EEO–4 form. All requests for additional report forms should also be directed to this address.

6. REQUESTS FOR INFORMATION AND SPECIAL PROCEDURES

An employer who claims that preparation or the filing of Report EEO–4 would create undue hardships may apply to the Commission for a special reporting procedure. In such cases, the employer should submit in writing an alternative proposal for compiling and reporting information to the EEO–4 Coordinator, Equal Employment Opportunity Commission, 1800 G Street, N.W., Washington, D.C. 20506.

Only those special procedures approved in writing by the Commission are authorized. Such authorizations remain in effect until notification of cancellation is given. All requests for information should be sent to the same address.

7. ELECTED AND APPOINTED OFFICIALS

Section 701(f) of the Equal Employment Opportunity Act of 1972 contains an exemption for elected and certain appointed officials that is set forth in definition of "employee" in Appendix 1. Based on the legislative history of Section 701(f), the General Counsel of the Commission has ruled that this exemption was intended by the Congress to be construed narrowly. This ruling concluded that only the following persons would be included in the exemption:

(1) State and local elected officials.
(2) Such official's immediate secretary, administrative, legislative, or other immediate or first-line aide.
(3) Such official's legal advisor.
(4) Appointed cabinet officials in the case of a Governor, or heads of executive departments in the case of a Mayor or County Council.

No other persons appointed by an elected official are exempt under this interpretation. In no case is any person exempt who is appointed by an appointed official, whether or not the latter is himself exempt. Furthermore, as specified in Section 701(f), the exemption does not include employees subject to the civil service laws of a State government, governmental agency or political subdivision.

8. CONFIDENTIALITY

All reports and information from individual reports are subject to the confidentiality provisions of Section 709(e) of Title VII, and may not be made public prior to the institution of any proceeding under Title VII. However, aggregate data may be made public in a manner so as not to reveal any particular jurisdiction's statistics.

INSTRUCTIONS ON HOW TO PREPARE INFORMATION REPORTS

Definitions of Terms and Categories are Located in the Appendix

SECTION A – TYPE OF GOVERNMENT

Check one box indicating type of government.

SECTION B – IDENTIFICATION

Indicate the name and central mailing address of the governmental jurisdiction if different from address label in top margin.

SECTION C – FUNCTION

The forms are mailed in sets of 15, with a different function marked on each form in a set. Please use the appropriate form for each function for which you are reporting. The data should be aggregated for all agencies performing a particular function. This also applies to unspecified functions, which are to be combined on one report marked number 15, "Other." State education agencies, both agencies covering elementary and secondary schools and those covering higher education, should be included in Function 15.

If an agency's activities cover more than one of the form's specified functions, those activities should be separated and reported under separate functions, where it is feasible to do so. Where the political jurisdiction is unable to make such separation of data, the agency should be reported under the function that represents its dominant activity. For example, if a transportation department includes among other functions streets and highways and two-thirds of the employees of the department are engaged in street-and-highway activities, those employees should be separated out and reported separately if feasible. If not, the entire department should be reported in Function 2, Streets and Highways. *In no case, should more than one function be reported on a single form.*

To each report, attach a list giving the name and address of all agencies covered. If the data for any agency or branch of the government cannot be supplied by the central office of a jurisdiction, attach a list with the name and address of each agency not included.

SECTION D – EMPLOYMENT DATA AS OF JUNE 30

For purposes of this report, a person is an employee of a political jurisdiction if he is on the payroll of that jurisdiction, regardless of the source of the funds by which he is paid.

1. FULL-TIME EMPLOYEES

(For detailed explanation of job categories and race/ethnic identification, see Appendix.)

Employment data should include total full-time employment except those elected and appointed officials specified in section 7 above of these instructions. Where employees receive separate salaries or payments from two or more jurisdictions, but work full-time for one jurisdiction, they should be counted as full-time employees by that jurisdiction, and to the extent possible their annual salary should reflect their total earnings from all jurisdictions from which they are paid. Also, where a person is a full-time employee of a jurisdiction, but is employed in more than one function, he should be reported for the function which accounts for most of his work-time. Trainees should be counted in appropriate columns by job, salary, race, and sex.

a. **Race/Sex Data** – Columns A through L should reflect employment for the categories indicated. Every employee must be accounted for in *one and only one* of the categories. Definitions are included in the Appendix (2).

b. **Occupational Data** – Employment data should be reported by annual salary within job category. Report each employee in *only one* job/salary category. In order to simplify and standardize the

method of reporting, all jobs are considered as belonging in one of the broad occupations shown in the table. To assist you in determining how to place your jobs within the occupational groups, a description of job categories with examples follows in the Appendix (3). The list of examples is in no way exhaustive. *Total Line—Report *total employment for this matrix*, as well as column totals.

c. **Annual Salary**—Where employees are paid on other than an annual basis, their regular earnings in the payroll period including June 30, except for overtime pay which is not regular and recurrent, but including all special increments that are part of their annual earnings, should be expanded and expressed in terms of an annual income.

2. OTHER THAN FULL-TIME EMPLOYEES

Employment data should include all employees not included in the full-time matrix, except those specifically exempted (see Section 7, Elected and Appointed Officials). Where employees are working part-time for different jurisdictions, and are on separate payrolls of different jurisdictions, they should be reported as part-time employees of the separate jurisdictions. Persons on the payroll of the jurisdiction for a specified temporary appointment, such as the public employment program, should be included in this category.

*Total Line—Report *total employment for this matrix*, as well as column totals.

3. NEW HIRES DURING FISCAL YEAR

Statistics on new hires during the past fiscal year are required to be reported beginning with the 1974 survey. New hires data should reflect all permanent full-time employees hired from July 1 to June 30.

*Total Line—Report *total employment for this matrix*, as well as column totals.

REMARKS

Include in this section any remarks, explanations, or other pertinent information regarding this report.

NOTE: List here the National Crime Information Center (NCIC) numbers assigned by the U.S. Department of Justice to any criminal justice agencies whose data are included.

CERTIFICATION

The report must be certified and signed by an official responsible for the information, unless this report has been included in those certified and signed for on the summary page accompanying and submitted with the completed forms.

APPENDIX

1. DEFINITIONS APPLICABLE TO ALL EMPLOYERS

a. "Commission" refers to the Equal Employment Opportunity Commission established under Title VII of the Civil Rights Act of 1964.

b. "Employee" means an individual employed by a political jurisdiction, who is on the payroll of that jurisdiction, regardless of the source of the funds by which he is paid. The following is an exception from the definition, subject to the interpretation in Section 7 above of these instructions: The term "employee" shall not include any person elected to public office in any State or political subdivision of any State by the qualified voters thereof, or any person chosen by such officer to be on such officer's personal staff, or an appointee on the policymaking level or an immediate adviser with respect to the exercise of the constitutional or legal powers of the office. The exception set forth in the preceding sentence shall *not* include employees subject to the civil service laws of a State government, governmental agency or political subdivision.

c. "Full-time Employees"—Persons employed during this pay period to work the number of hours per week that represent regular full-time employment (excluding temporaries and intermittents).

d. "Other than Full-time Employees"—Persons employed during this pay period on a part-time basis. Include those daily or hourly employees usually engaged for less than the regular full-time work week, temporaries working on a seasonal basis (whether part-time or full-time) or hired for the duration of a particular job or operation, including public employment programs, and intermittents.

e. "New Hires During Fiscal Year"—Persons both with and without previous experience and transfers who were hired for the first time in this jurisdiction or rehired after a break in service for permanent full-time employment.

2. RACE/ETHNIC IDENTIFICATION

An employer may acquire the race/ethnic information necessary for this section either by visual surveys of the work force, or from post-employment records as to the identity of employees. An employee may be included in the minority group to which he or she appears to belong, or is regarded in the community as belonging.

Since visual surveys are permitted, the fact that race/ethnic identifications are not present on agency records is not an excuse for failure to provide the data called for. However, although the Commission does not encourage direct inquiry as a method of determining racial or ethnic identity, this method is not prohibited in cases where it has been used in the past, or where other methods are not practical, provided it is not used for purposes of discrimination.

Moreover, the fact that employees may be located at different addresses does not provide an acceptable reason for failure to comply with the reporting requirements. In such cases, it is recommended that visual surveys be conducted for the employer by persons such as supervisors who are responsible for the work of the employees or to whom the employees report for instructions or otherwise.

Please note that the General Counsel of the Commission has ruled, on the basis of court decisions, that the Commission has the authority to require the racial and ethnic identification of employees, regardless of any possibly conflicting state or local laws.

The concept of race as used by the Equal Employment Opportunity Commission does *not* denote clearcut scientific definitions of anthropological origins. For the purposes of this report, an employee may be included in the group to which he or she appears to belong, identifies with, or is regarded in the community as belonging. However, no person should be counted in more than *one* race/ethnic category.

NOTE: The category "Spanish Surnamed", while not a race identification, is included as a separate ethnic category because of the employment discrimination often encountered by this group; for this reason do not include Spanish Surnamed under either "white" or "black".

For the purposes of this report, the following group categories will be used:

a. The category "White": include persons of Indo-European descent, including Pakistani and East Indian.
b. The category "Black": include persons of African descent as well as those identified as Jamacian, Trinidadian, and West Indian.
c. The category "Spanish Surnamed": include all persons of Mexican, Puerto Rican, Cuban, Latin American or Spanish descent.
d. The category "American Indian": include persons who identify themselves or are known as such by virtue of tribal association.
e. The category "Asian American": include persons of Japanese, Chinese, Korean or Filipino descent.
f. The category "Other": include Aleuts, Eskimos, Malayans, Thais and others not covered by the specific categories on the form.

3. DESCRIPTION OF JOB CATEGORIES

a. **Officials and Administrators:** Occupations in which employees set broad policies, exercise overall responsibility for execution of these policies, or direct individual departments or special phases of the agency's operations, or provide specialized consultation on a regional, district or area basis. Includes: department heads, bureau chiefs, division chiefs, directors, deputy directors, controllers, examiners, wardens, superintendents, sheriffs, police and fire chiefs and inspectors and kindred workers.

b. **Professionals:** Occupations which require specialized and theoretical knowledge which is usually acquired through college training or through work experience and other training which provides comparable knowledge. Includes: personnel and labor relations workers, social workers, doctors, psychologists, registered nurses, economists, dieticians, lawyers, system analysts, accountants, engineers, employment and vocational rehabilitation counselors, teachers or instructors, police and fire captains and lieutenants and kindred workers.

c. **Technicians:** Occupations which require a combination of basic scientific or technical knowledge and manual skill which can be obtained through specialized post-secondary school education or through equivalent on-the-job training. Includes: computer programmers and operators, draftsmen, surveyors, licensed practical nurses,

photographers, radio operators, technical illustrators, highway technicians, technicians (medical, dental, electronic, physical sciences), assessors, inspectors, police and fire sergeants and kindred workers.

d. **Protective Service Workers:** Occupations in which workers are entrusted with public safety, security and protection from destructive forces. Includes: police patrol officers, fire fighters, guards, deputy sheriffs, bailiffs, correctional officers, detectives, marshals, harbor patrol officers and kindred workers.

e. **Paraprofessionals:** Occupations in which workers perform some of the duties of a professional or technician in a supportive role, which usually require less formal training and/or experience normally required for professional or technical status. Such positions may fall within an identified pattern of staff development and promotion under a "New Careers" concept. Includes: library assistants, research assistants, medical aides, child support workers, police auxiliary, welfare service aides, recreation assistants, homemakers aides, home health aides, and kindred workers.

f. **Office and Clerical:** Occupations in which workers are responsible for internal and external communication, recording and retrieval of data and/or information and other paperwork required in an office. Includes: bookkeepers, messengers, office machine operators, clerk-typists, stenographers, court transcribers, hearing reporters, statistical clerks, dispatchers, license distributors, payroll clerks and kindred workers.

g. **Skilled Craft Workers:** Occupations in which workers perform jobs which require special manual skill and a thorough and comprehensive knowledge of the processes involved in the work which is acquired through on-the-job training and experience or through apprenticeship or other formal training programs. Includes: mechanics and repairmen, electricians, heavy equipment operators, stationary engineers, skilled machining occupations, carpenters, compositors and typesetters and kindred workers.

h. **Service–Maintenance:** Occupations in which workers perform duties which result in or contribute to the comfort, convenience, hygiene or safety of the general public or which contribute to the upkeep and care of buildings, facilities or grounds of public property. Workers in this group may operate machinery. Includes: chauffeurs, laundry and dry cleaning operatives, truck drivers, bus drivers, garage laborers, custodial personnel, gardeners and groundkeepers, refuse collectors, construction laborers.

4. LEGAL BASIS FOR REQUIREMENTS

Section 709(c), Title VII, Civil Rights Act of 1964

(As Amended by the Equal Employment Opportunity Act of 1972)

Recordkeeping; reports

Every employer, employment agency, and labor organization subject to this title shall (1) make and keep such records relevant to the determinations of whether unlawful employment practices have been or are being committed, (2) preserve such records for such periods, and (3) make such reports therefrom as the Commission shall prescribe by regulation or order, after public hearing, as reasonable, necessary, or appropriate for the enforcement of this title or the regulations or orders thereunder. The Commission shall, by regulation, require each employer, labor organization, and joint labor-management committee subject to this title which controls an apprenticeship or other training program to maintain such records as are reasonably necessary to carry out the purposes of this title, including, but not limited to, a list of applicants who wish to participate in such program, including the chronological order in which applications were received, and to furnish to the Commission upon request, a detailed description of the manner in which persons are selected to participate in the apprenticeship or other training program. Any employer, employment agency, labor organization, or joint labor-management committee which believes that the application to it of any regulation or order issued under this section would result in undue hardship may apply to the Commission for an exemption from the application of such regulation or order, and, if such application for an exemption is denied, bring a civil action in the United States district court for the district where such records are kept. If the Commission or the court, as the case may be, finds that the application of the regulation or order to the employer, employment agency, or labor organization in question would impose an undue hardship, the Commission or the court, as the case may be, may grant appropriate relief. If any person required to comply with

the provisions of this subsection fails or refuses to do so, the United States district court for the district in which such person is found, resides, or transacts business, shall, upon application of the Commission, or the Attorney General in a case involving a government, governmental agency or political subdivision, have jurisdiction to issue to such person an order requiring him to comply.

Title 29, Chapter XIV, Code of Federal Regulations

Subpart I—State and Local Governments Recordkeeping

§1602.30 Records to be made or kept.

On or before July 30, 1973, and annually thereafter, every political jurisdiction with 15 or more employees is required to make or keep records and the information therefrom which are or would be necessary for the completion of report EEO–4 under the circumstances set forth in the instructions thereto, whether or not the political jurisdiction is required to file such report under § 1602.32 of the regulations in this part. The instructions are specifically incorporated herein by reference and have the same force and effect as other sections of this part.[1] Such records and the information therefrom shall be retained at all times for a period of 3 years at the central office of the political jurisdiction and shall be made available if requested by an officer, agent, or employee of the Commission under Section 710 of Title VII, as amended. Although agency data are aggregated by functions for purposes of reporting, separate data for each agency must be maintained either by the agency itself or by the office of the political jurisdiction responsible for preparing the EEO–4 form. It is the responsibility of every political jurisdiction to obtain from the Commission or its delegate necessary instructions in order to comply with the requirements of this section.

§1602.31 Preservation of records made or kept.

(a) Any personnel or employment record made or kept by a political jurisdiction (including but not necessarily limited to application forms submitted by applicants and other records having to do with hiring, promotion, demotion, transfer, layoff or termination, rates of pay or other terms of compensation, and selection for training or apprenticeship) shall be preserved by the political jurisdiction for a period of 2 years from the date of the making of the record or the personnel action involved, whichever occurs later. In the case of involuntary termination of an employee, the personnel records of the individual terminated shall be kept for a period of 2 years from the date of termination. Where a charge of discrimination has been filed, or an action brought by the Attorney General against a political jurisdiction under title VII, the respondent political jurisdiction shall preserve all personnel records relevant to the charge or action until final disposition of the charge or the action. The term "personnel record relevant to the charge," for example, would include personnel or employment records relating to the person claiming to be aggrieved and to all other employees holding positions similar to that held or sought by the person claiming to be aggrieved; and application forms or test papers completed by an unsuccessful applicant and by all other candidates for the same position as that for which the person claiming to be aggrieved applied and was rejected. The date of final disposition of the charge or the action means the date of expiration of the statutory period within which a person claiming to be aggrieved may bring an action in a U.S. district court or, where an action is brought against a political jurisdiction either by a person claiming to be aggrieved or by the Attorney General, the date on which such litigation is terminated.

(b) The requirements of this section shall not apply to application forms and other preemployment records of applicants for positions known to applicants to be of a temporary or seasonal nature.

Subpart J—State and Local Government Information Report

§1602.32 Requirement for filing and preserving copy of report.

(a) On or before July 30, 1974 and annually thereafter, certain political jurisdictions subject to title VII of the Civil Rights Act of 1964, as amended, shall file with the Commission or its delegate executed copies of "State and Local Government Information Report EEO–4" in conformity with the directions set forth in the form and

[1] NOTE.—Instructions were published as an appendix to the proposed regulations on Mar. 2, 1973 (38 FR 5662).

accompanying instructions. The political jurisdictions covered by this regulation are (1) those which have 100 or more employees, and (2) those other political jurisdictions which have 15 or more employees from whom the Commission requests the filing of reports. Every such political jurisdiction shall retain at all times a copy of the most recently filed EEO–4 at the central office of the political jurisdiction for a period of 3 years and shall make the same available if requested by an officer, agent, or employee of the Commission under the authority of Section 710 of Title VII, as amended.

(b) For calendar year 1973, the requirements of paragraph (a) of this section shall be carried out on or before October 31, 1973.

§ 1602.33 Penalty for making of willfully false statements on report.

The making of willfully false statements on report EEO–4, is a violation of the United States Code, Title 18, Section 1001, and is punishable by fine or imprisonment as set forth therein.

§ 1602.34 Commission's remedy for political jurisdiction's failure to file report.

Any political jurisdiction failing or refusing to file report EEO–4 when required to do so may be compelled to file by order of a U.S. district court, upon application of the Attorney General.

§ 1602.35 Political jurisdiction's exemption from reporting requirements.

If it is claimed the preparation or filing of the report would create undue hardship, the political jurisdiction may apply to the Commission for an exemption from the requirements set forth in this part by submitting to the Commission or its delegate a specific proposal for an alternative reporting system prior to the date on which the report is due.

§ 1602.36 Schools exemption.

The recordkeeping and report-filing requirements of subparts I and J shall not apply to State or local educational institutions or to school districts or school systems or any other educational functions. The previous sentence of this section shall not act to bar jurisdiction which otherwise would attach under § 1602.30.

§ 1602.37 Additional reporting requirements.

The Commission reserves the right to require reports, other than that designated as the "State and Local Government Information Report EEO–4," about the employment practices of individual political jurisdictions or group of political jurisdictions whenever, in its judgment, special or supplemental reports are necessary to accomplish the purposes of Title VII. Any system for the requirement of such reports will be established in accordance with the procedures referred to in section 709(c) of Title VII and as otherwise prescribed by law.

Subpart K—Records and Inquiries as to Race, Color, National Origin, or Sex

§ 1602.38 Applicability of State or local law.

The requirements imposed by the Equal Employment Opportunity Commission in these regulations, subparts I and J, supersede any provisions of State or local law which may conflict with them.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

STATE AND LOCAL GOVERNMENT INFORMATION (EEO-4)

EXCLUDE SCHOOL SYSTEMS AND EDUCATIONAL INSTITUTIONS

(Read attached instructions prior to completing this form)

FORM APPROVED OMB NO. 124-R0009

MAIL COMPLETED FORM TO:

A. TYPE OF GOVERNMENT (Check one box only)

☐ 1. State ☐ 2. County ☐ 3. City ☐ 4. Township ☐ 5. Special district

☐ 6. Other (Specify)_____

B. IDENTIFICATION

1. NAME OF POLITICAL JURISDICTION (If same as label, skip to Item C)

EEOC USE ONLY A

2. Address - Number and Street	CITY/TOWN	COUNTY	STATE/ZIP

B

C. FUNCTION

(Check one box to indicate the function for which this form is being submitted. Data should be reported for all departments and agencies in your government covered by the function indicated. If you cannot supply the data for every agency within the function, please attach a list showing name and address of agencies whose data are not included.)

☐ 1. FINANCIAL ADMINISTRATION. Tax assessing, tax billing and collection, budgeting, purchasing, central accounting and similar financial administration carried on by a treasurer's, auditor's or comptroller's office and

GENERAL CONTROL. Duties usually performed by boards of supervisors or commissioners, central administrative offices and agencies, central personnel or planning agencies, and judicial offices and employees (judges, magistrates, bailiffs, etc.)

☐ 2. STREETS AND HIGHWAYS. Maintenance, repair, construction and administration of streets, alleys, sidewalks, roads, highways and bridges.

☐ 3. PUBLIC WELFARE. Maintenance of homes and other institutions for the needy, administration of public assistance. (Hospitals and sanitoriums should be reported as item 7.)

☐ 4. POLICE PROTECTION. Duties of a police department, sheriff's, constable's, coroner's office, etc., including technical and clerical employees engaged in police activities.

☐ 5. FIRE PROTECTION. Duties of the uniformed fire force and clerical employees. (Report any forest fire protection activities as item 6.)

☐ 6. NATURAL RESOURCES. Agriculture, forestry, forest fire protection, irrigation, drainage, flood control, etc.; and
PARKS AND RECREATION. Provision, maintenance and operation of parks, playgrounds, swimming pools, auditoriums, museums, marinas, zoo, etc.

☐ 7. HOSPITALS AND SANITORIUMS. Operation and maintenance of institutions for inpatient medical care.

☐ 8. HEALTH. Provision of public health services, out-patient clinics, visiting nurses, food and sanitary inspections, mental health, etc.

☐ 9. HOUSING. Code enforcement, low rent public housing, fair housing ordinance enforcement, housing for elderly, housing rehabilitation, rent control.

☐ 10. COMMUNITY DEVELOPMENT. Planning, zoning, land development, open space, beautification, preservation.

☐ 11. CORRECTIONS. Jails, reformatories, detention homes, half-way houses, prisons, parole and probation activities.

☐ 12. UTILITIES AND TRANSPORTATION. Includes water supply, electric power, transit, gas, airports, water transportation and terminals.

☐ 13. SANITATION AND SEWAGE. Street cleaning, garbage and refuse collection and disposal. Provision, maintenance and operation of sanitary and storm sewer systems and sewage disposal plants.

☐ 14. EMPLOYMENT SECURITY

☐ 15. OTHER (Specify)

Appendix 3. Source and Reliability of Data

TOWNSHIP GOVERNMENT

SOURCE AND RELIABILITY OF DATA

For this report employment information was obtained from township jurisdictions employing 15 or more non-elected and non-appointed full-time employees. In selecting the sample, all local governments were stratified by type and employment size. All jurisdictions with more than 100 full-time employees were included and a systematic random sample was taken of those local governments which have employment between 15 and 99. Forms were mailed to 487 independent jurisdictions. The overall response rate was 77 percent.

The statistics in this report which are based entirely or partially on sample data are subject to sampling variation which may cause them to vary somewhat from the result that would have been obtained had all jurisdictions been asked to submit their employment data.

The township estimates presented in this report include adjustments for non-response and are based upon the summation of the certainty units and the weighted sample units. Sampling error calculations indicate that the chances are 95 out of 100 that the figure which would be obtained from a complete enumeration is within 3.4 percent (plus or minus) of the EEO-4 estimate of total full-time employment. The complete count, without any sample error, would fall at some point in this range.

Estimates of subtotals, such as by individual functions, are subject to relatively larger variation, and range from 6.5 percent for "Police Protection" to 49.4 percent for "Corrections."

The tables in this report present estimates of median annual salaries. The sampling variability of an estimated median depends upon the relevant salary distribution as well as the size of the base. The smaller the base the larger the variability of a median.

Table 1 following contains 95 percent confidence intervals for medians of various magnitudes and bases, and is intended to give some general indication of the relative size of the sampling variability of the medians.

A 95 percent confidence interval is defined such that if many samples of the same size were taken and a two standard error confidence interval were formed for each sample median, about 95 out of 100 of the intervals would contain the median which would result from a complete enumeration.

If in comparing two medians their confidence intervals overlap the assumption is that a complete enumeration could well show them to be of the same magnitude.

Table 1. Sampling Variability of Selected Medians

Characteristics	Median Salary	Base	95 Percent Confidence Interval
Total	$ 9,833	69,643	$ 9,699 - $ 9,956
White	9,861	67,282	9,730 - 9,992
